Dear Mr. Weisberg:

While there are a number of statements in your letter I do not understand, I take it that you are asking for permission to examine the autopsy photographs and X-rays made at the time of the President's death. As you know, the agreement under which these were given by the family to the United States says that there shall be no access to the materials for a period of five years, and that thereafter access is limited to professionally qualified doctors with a serious historical purpose. I am not aware that you have the medical qualifications necessary. If I am wrong about that, please let me know.

Sincerely,

Burke Marshall
